

# PRAKASH TRADING CO

ESTD- 1949

ISO 9001:2015 & ISO 45001:2018 Certified Company

**WE ARE A LEADING  
MANUFACTURER AND SUPPLIER OF  
HVAC SYSTEMS AND  
A FULL RANGE OF DUCTING SOLUTIONS.**

**15  
YEARS**

**Vast Experience**

# ABOUT US

**PRAKASH TRADING CO.** Founded in 1949. Prakash Trading Co. has set the standard for excellence in HVAC and EPC industries, providing high-quality, factory-fabricated ducting solutions for diverse applications. Our reputation is built on delivering durable, efficient products that meet the specific needs of our clients across commercial, industrial, and institutional sectors

## MISSION

To lead Gujarat's HVAC and EPC sector by delivering ISO 9001:2015-certified, innovative ducting and ventilation solutions tailored to diverse industrial and commercial needs. We are committed to client satisfaction, advancing industry standards, and fostering sustainable development with eco-friendly solutions.

## VISION

To set a benchmark for excellence and innovation in HVAC and Industrial EPC, delivering efficient, high-quality, and customizable solutions that enable clients to achieve their goals seamlessly.

## CORE VALUES

At Prakash Trading Co., we prioritize quality and precision, supported by our ISO 9001:2015 certification, advanced technology, and a debt-free structure. Integrity, safety, and a client-focused approach define our projects, as we strive to build enduring partnerships and lasting value for every client.

## Why Choose Us

- **Quality-Centric Approach :-**

Our ducting solutions are manufactured in compliance with SMACNA, IS 655, and ISO 9001:2015 standards, ensuring optimal performance, durability, and reliability for various HVAC installations.

- **Technology-Driven Manufacturing :-**

With advanced machinery and a technology-focused workflow, we deliver consistent precision and efficiency in every aspect of duct fabrication, meeting project timelines with accuracy.

- **Customized Solutions :-**

We offer tailored ducting solutions to meet unique client specifications, from small-scale systems to complex installations in specialized environments.

- **Commitment to Safety :-**

Certified to OHSAS 45001:2018, we prioritize safety throughout our manufacturing processes, creating a secure environment for both our team and our clients.

## Product Range

**Our factory-fabricated duct catalog includes :-**

- **Round and Oval Ducts:** Engineered for optimal airflow and spatial efficiency.
- **Rectangular Ducts:** Customizable in size, built for durability and long-term performance.
- **Insulated and Acoustic Ducts:** Ideal for noise-sensitive and temperature-controlled environments, ensuring energy efficiency and comfort.
- **Ventilation Ducts:** Designed with energy recovery options for spaces requiring enhanced air quality.
- **Specialty Ducts:** Fabricated to comply with ISO 14644 standards, suitable for cleanrooms and controlled environments requiring precise particulate, humidity, and temperature control.

## Additional Services

- **Mechanical Division :-**

Offers comprehensive project support including central air conditioning, cold rooms, duct fabrication and erection, piping, insulation, and fire protection.

- **Electrical Division :-**

Provides complete electrical systems solutions, from power distribution to low-voltage systems, in line with industry standards.

- **Operation and Maintenance Contracts :-**

Ensures ongoing optimal performance and compliance for all installed systems. For further information, visit [www.prakashtradingco.com](http://www.prakashtradingco.com) or contact our team.
